

# SHRI NIRMALA KAVACH

Protection of Shri Nirmala

Navaratri Puja 2022

*Salutations to Shri Nirmal Ganesha,  
may there be no obstacles.*

Shri Nirmal Ganesha,  
please make us humble like dust particles and our faith in Mother, solid like a mountain.

Salutations to Shri Nirmala Saraswati, Salutations to Shri Brahmadeva,  
May Shri Nirmala Vidya be awakened within us .....

Salutations to Shri Laxshmi Narayanam, Salutations to Shri Adi Guru, Salutations to all  
the Gods and Goddesses  
and may we be ever protected by them.

Now begins the Maha Kavach of Shri Mataji Nirmala Devi.

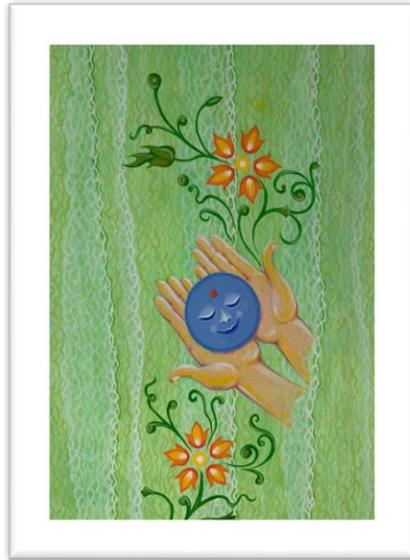

The presiding sage for Shri Nirmala Kavacha is Mahadeva,  
The meter is Shri Bhairavi, The presiding deity is Mahamaya.

The Seed is "Shri Bhagavati" ..... Bhaga means six things together.  
There are six attributes of God and Bhagawati is the Power of God.

*First is Innocence;  
Second is Creativity;  
Third is Sustenance;  
Fourth is Security;  
Fifth is collective awareness and Divine Diplomacy;  
Sixth is Forgiveness and Compassion.*

Shri Adi Shakti is the same as Bhagawati is the same as Nirmala Devi, and She is the  
Power of God. Without Bhagawati, God has no meaning.

It is like the moon and the moonlight, sun and sunlight  
You cannot differentiate.  
They are one and the same. The principle is Kalki Devata.  
Obeisance to Mahamaya.....

Thus spoke Harish with humility.....

Oh Mahadevi, please tell us that which is supreme and enlightens a Jivatma. that which helps yogis to ascend spiritually, destroying all ignorance and brings a seeker closer to You.

Shri Mahadevi replied.

There is Nirmala Kavacha of Mahamaya, which is extremely powerful, simple in its implication and is useful to protect all human beings.

It enlightens your attention and expands your awareness, leading the seeker onto the middle path where God has His benediction.

The Golden Goddess of serpentine nature is also known by the following names: Kundalini, Gauri, Kumari, Tejaswini, Surti, Al burqa, Tao, Virgin and many many others.....

For millions of years, she has been sleeping in the sacrum bone forming three and a half coils, waiting to be awakened so She can fulfill Her destiny.

When She is awakened by The Satguru, she shoots upwards, enlightening every Heaven it passes through before merging into the all-pervading cosmos.

This process is known as Kundalini Awakening and the seeker thus receives the Self Realization.

Once the Self-Realization is established, the seeker embarks on the beautiful journey of Self Fulfillment.

There is no need to renounce anything or retire in the mountain or forest. This Self-Realization is to be practised by normal householders, staying in the society. Even children can practice this and it is absolutely safe without any unpleasant side effects.

When the Kundalini is awakened in a seeker, she passes through seven heavens located in the body.

She eventually destroys all the blockages, impurities and diseases thus purifying and enlightening each heaven with Divine qualities.

Then Mahadevi summoned a Horse by the name Tejaswini.....

Shri Mahadevi said, "Please my child, mount on this Golden Horse with feminine head; we shall embark on the journey through Seven Heavens:

Tejaswini was extremely graceful and it had a face of one of the most beautiful Goddesses. The wings of the Horse spanned the three worlds and its slender legs barely touched the Earth.

There was Shri Hanumana and Shri Saraswati on the right side, Shri Bhairava and Shri Mahakali on the left side.

Shri Mahalaxshmi who was in the centre, showed us the way.

The Seventh Heaven has one thousand gardens

Each garden has many, many beautiful trees full of coloured flowers and fruits. There is a light which is shining so bright everywhere. One can see all the other six Heavens beneath.

In the Middle of the garden there is a very bright burning bush emitting, extremely

sweet fragrance and a cool breeze.

Tejaswini the Feminine horse brings me closer to this bush and asks me to alight and disappear into lights.

I hear a voice coming from the cool flames of the bush; Welcome to The Kingdom of God. I instantly recognize this feminine voice of Mahadevi.

I see that Mahalaxshmi, Mahasaraswati and Mahakali have bowed down and I too follow their footsteps.

The cool tongues of flame leap in all directions touching the Fontanel Bone area of my head. I felt a cooling sensation in my spine as if something very strong is rising upwards. It reached the brain and there is a sudden expansion and I see millions of suns Shining within.

Slowly the Light fades out and I feel a very cool sensation on my head, palms and my entire body is feeling light as air.

I raise my head and see the form of Mahadevi slowly emerging from the cool flames of the bush. She is so beautiful and Her Face is shining like millions of suns put together. Slowly, Mahalaxshmi, Mahasaraswati and Mahakali merge into Her.

She in a very gentle voice tells me that I have my Self Realization, I must daily meditate and try to seek through meditation alone.

First there will be the state of thoughtless awareness known as Nirvichara Samadhi, this will be followed by the state of doubtless awareness known as Nirvikalpa Samadhi. Once the seeker attains the state of Nirvikalpa there is absolute protection from the Almighty and the seeker remains ever in Nirmalananda.

She showed me how to raise the Kundalini and take seven Bandhans of Her Divine protection.

Thanking the Mahadevi for revealing to me the science of Sahaja Yoga, I asked Her humbly, "Oh Mahadevi, when will I see you again?"

To that She replied, "I am Omniscient, Omnipotent and Omnipresent, saying this She disappeared leaving me drenched in the ambrosia of Her Divine vibrations....."

Thus ends the Nirmala Kavach of Mahadevi, Mahamaya.

*Sakshat Shri Adi Shakti Mataji,  
Shri Nirmala Devi Namoh Namaha..*
